The screenshot shows the JupyterLab web interface. On the left, the 'Files' view is active, displaying a file browser for the 'Documents' directory. The browser shows a list of files and folders, including 'Custom Office Templates', 'Python Scripts', 'assignment2 mk.ipynb', 'Untitled.ipynb', 'Untitled1.ipynb', 'Untitled2.ipynb', and 'frame.html'. A context menu is open over the 'Python 3 (ipykernel)' notebook, showing options like 'Text File', 'Folder', and 'Terminal'. The main workspace on the right is currently empty. The top of the interface shows the Jupyter logo and navigation buttons like 'Quit' and 'Logout'. The bottom of the image shows the Windows taskbar with various application icons and the system clock.
